

# Holli Care, LLC

Helping Others Live Life Independently

Veteran Owned and Operated

Built on nursing principles, **Holli Care, LLC** recognizes that each client is an individual and that the provided care should be designed for their unique needs as well as the needs of their family.

A Personal Care Assessment by a RN allows us to design a specific plan of care and develop a team of caregivers that will maximize our client's level of comfort and trust while encouraging independence.

*"I have been very appreciative of the excellent service provided by the caregivers of your firm. Each caregiver is professional, very friendly and always punctual. It is gratifying to know that there are compassionate people available to help when they are needed. Thank you for being here for me."* - GF
