

RESIDENTIAL DENTAL CARE

(650) 355-1475

www.residentialdental.com

HELLO, I'M IRENE! THANKS FOR STOPPING BY MY VIRTUAL BOOTH.

I began Residential Dental Care with a mission to improve the overall health of our elderly population by elevating the Standards of Dentistry through the practice of at-home preventative dentistry and patient advocacy. Our services are especially designed for maximum convenience of the homebound and their loved ones. In 1998 I earned a B.S. in Dental Hygiene from the University of California San Francisco. These days I stay up-to-date on the latest practices and methods as an active member of the American Dental Hygienists' Association! Caring for patients is a passion of mine, do not hesitate to reach out with any questions and to book an appointment!

SERVICES

- Medical history assessments and review
- Comprehensive oral evaluation
- Oral cancer/soft tissue exam
- Dental Cleaning
- Cavity arresting fluoride treatments.

FEES

A comprehensive oral evaluation and dental cleaning with cavity protection is \$250. This includes travel and coordination of medical forms with DDS or MD. All care is on a "fee for service" basis.
