

# Long Term Care

## *Living with Dignity and Respect*

Moving into a skilled nursing center can be one of the most important and positive decisions you make for yourself and your loved one. Helping to improve our residents' quality of life, our Center provides assistance with activities of daily living such as dressing, bathing, toileting, and eating, as well as comprehensive medical, therapeutic, and rehabilitative care. We provide you the opportunity to thrive in our Center as we meet the changing health care needs of each individual. This allows you to stay in one setting as your health care needs increase.

## Our Services

- 24/7 RN Supervised Care
- A food service model that is focused on resident choice and overseen by a dietician
- Varied activities aimed at enriching the lives of each individual
- Amenities with many of the comforts of home
- Physician directed care and programs
- Assistance with financial planning for your care needs
